

# ECO PARK PROJECT

## AN INVESTMENT IN YOUR COMMUNITY

It's time to enhance our easternmost city park. We are asking you to consider pitching in for a park project that will educate our youth, bring families together, and create lasting memories for our community.

For almost 10 years, thousands of children have enjoyed Eco Park's environmental days, its beautiful boardwalk to Waupaca's historic river, and the new Tree Trek. As the City looks to rebuild the aging features, we have the opportunity to transform the space into something truly spectacular. We hope to improve the site with a new, natural playground, a larger parking lot, open-aired shelter, and plumbed bathroom facilities. All of these improvements will make Waupaca an even better place to raise a family. The Eco Park project will put Waupaca on the map, making our city a more attractive and environmentally focused destination for families of all ages and a better place to live for those already here.

With donor signage and naming rights available, your gift represents a visible demonstration of your commitment to this community.

## GOALS AND OBJECTIVES

1. Provide public ADA-accessible access to safe playground play
2. Enhance amenities for a variety of user groups within Eco Park
3. Attract potential residents and families to move to our community
4. Create an outdoor environmentally-friendly educational and recreational destination for people outside our community
